

For Movement's Sake

A performance by David Hernandez

Technical specifications

Jan. 2016

Performance space

Size: 12m wide x 12m deep
bare or black box, to be discussed for each venue
Floor covered with white or grey marley

Set

We bring

- 1 white sharktooth gauze, W10m40 x H3m90, with tie ribbons
- 1 transparent PVC screen with photoprint, W10m40 x H3m90, with tie ribbons
- 2 transparent PVC screen with photoprint, W2m65 x H3m90, 1 small table with recordplayer
- 2 chairs
- 1 small ladder

We need from the theater

- 2 pipes 10m40 to hang the gauze and the large PVC screen at H3m90
- 1 pipe 8m to rig the cyclights at about H4m
- 2 pipes 3m to rig the smaller PVC screens
- steel tube with 2m20 steels
- black curtain behind our gauze

Light

We bring

- 1 DMX512-device [LanBox]

We need from the theater

- 2 PC 2kW with barndoors, OW; the positions and heights of these are quite precise, so we may need some pipes to achieve this
- 5 asymmetrical cyclights 1kW, L201
- 4 zoomprofile 15-35 1kW, L201

2 zoomprofile 15-35 1kW, L151 + R132
12 PAR64 CP61, OW
7 PAR64 CP61, L201
7 PAR64 CP61, L152
24 dimmers 2kW
some blackwrap and black alu tape might be needed.

Sound

We bring

- 1 laptop
- 1 soundcard, 6 line-out on balanced jack
- 1 old-fashioned recordplayer

We need from the theater

- 6 top speakers: 2 standing upstage, 2 hanging FOH, 2 behind audience
- 2 sub
- amplifiers for these
- delay for FOH and audience speakers
- 2 DI to connect our recordplayer to the system
- 1 mixing desk 8 xlr-IN, 8 OUT

set-up time

Depending on circumstances, we will need 8 hours of set-up on day 1, with the help of 3 technicians. We assume that all equipment is present from start.

We will want to rehearse from 19h00 to 22h00.

Day 2 in the morning, we need 2 technicians for finishing of setup.

Afternoon is for rehearsal: 1 technician on stand-by. Show in the evening: 1 stand-by

After last show, we need 2 technicians for strike.
